

Kawasaki ZRX-1100/1200

Bike Specific Install Notes and Tips

This is an aftermarket product that fits up different than the stock components, therefore, the installer may be required to set up components and to route lines in the "best way possible", which may not always be listed on this "Bike Specific" installation sheet. In any case, the installation must allow the handlebars to reach both steering stops, without pulling taught or kinking any lines, and without damaging any part of the motorcycle

Important Installation Considerations

Special Kit Requirements/Installation Tips

1. Cyclops Clamps - Flipping the clamps upside down from what is in the instruction book, may offer more convertibility and better fitment.

Restrictions

1. Foreword Positions restricted by instrument panel

Recommended Riser Trim Length

1. 8.0" Riser Length = No Trimming

Recommended parts and replacement lines

1. Hydraulic Brake Line = Stock + 3"
