

# Suzuki GSX750F Katana 750(89-02)

## Bike Specific Install Notes and Tips

This is an aftermarket product that fits up different than the stock components, therefore, the installer may be required to set up components and to route lines in the "best way possible", which may not always be listed on this "Bike Specific" installation sheet. In any case, the installation must allow the handlebars to reach both steering stops, without pulling taught or kinking any lines, and without damaging any part of the motorcycle

### **Important Installation Considerations**

Mounting on top of the triple clamp requires raising the forks by about 1 inch.

### **Recommended parts and replacement lines**

1. Suzuki Katana 750(89-02) Stock+100mm length Clutch Line. Part Number 07-0794. Order from ConvertiBARS.
